

## DRUMS, SHAKERS AND CASTANETS ON MY MUSIC!

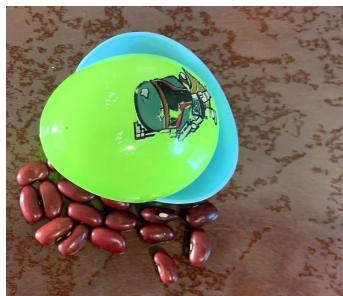

Let's get ready to jam!! But first we need some instruments!

**Drums:** You can turn any round top container into a drum. I used an oatmeal container and taped construction paper around it and then used crayons to draw shapes. Or you can use an old pot and wooden spoon.

**Egg Shakers:** Use any small plastic bottle and place dry beans or rice inside. Or if you have plastic eggs, you can fill them up with beans or rice. Just remember to tape the openings so the beans or rice don't fly all over!

**Castanets:** All you will need is cardboard. Cut a rectangular shape that is 10 inches long and 3 inches wide. Decorate your cardboard before glueing. Glue two bottle caps one on each end. Tada!
