

DESIGN YOUR ADVENTURE PLATE

Please bring a favorite scenic photo(color or b/w) from a vacation, or search the internet for an image.

Your scenic photo must:

- fit into **4 5/8" (4.625") diameter circle** equivalent to 4.625"W x 4.625"H (as shown below)
- be printed from a **LASER PRINTER** on printer paper(for quality), **not** inkjet printer or photo paper

4 5/8" (4.625") diameter

Suggestions:

- original 4"x 6" photo may be enlarged 120%(manual setting) on laser printer to fit within the circle
- if you do not have home access to a laser printer, try any library or Staples store
- print 2 copies (just in case)
- print another photo with a person, family or pet(in relative size to your scene) to make a collage

****Scenic photo print selections will be gladly provided in the program if anyone prefers.**

Example of working with 2 different photos to provide interest, humor, meaningfulness & be one of a kind-

Photo A scene

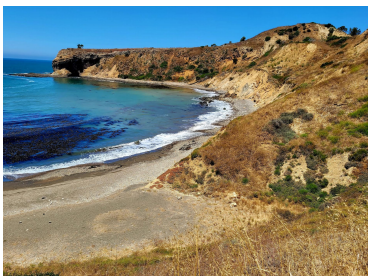

Photo B person cut out:
